Special programs giving Flint children access to fluoride

By Steve Carmody, Michigan Radio 05/23/16 4:30 PM

New programs are getting underway in Flint to help protect the teeth of thousands of children. Since Flint's drinking water crisis began, parents have stopped letting their children drink from the kitchen faucet. But while that is protecting the kids from contaminants in the water, it's also cutting them off from fluoride added to the water to protect their teeth.

Snyder shifts anonymous donations to aid Flint efforts

By Jonathan Oosting, Detroit News 05/23/16 3:51 PM

Michigan Gov. Rick Snyder's short-lived flirtation with a presidential run last year is now helping him pay bills related to the Flint water crisis. The embattled Republican governor is redirecting anonymous contributions to his "Making Government Accountable" nonprofit fund to cover costs associated with the Flint crisis, including payments to a private attorney who

helped him prepare for his March 17 congressional testimony in Washington, D.C.

\$6.7M raised for Flint fund to help children

By Chad Livengood, Detroit News 05/23/16 7:05 AM

Individuals and businesses from all 50 states and 10 countries have donated \$6.7 million to a fund for the long-term health care needs of Flint children exposed to toxic lead in the city's drinking water. The Community Foundation of Greater Flint set a goal of raising up to \$100 million for the Flint Child Health and Development Fund, said foundation president Kathi Horton. "We estimate that this fund is going to need between \$50 million and \$100 million if it's going to really have wrap-around, fill-the-gap resources for these children and their families for the next 20 years," Horton said. "We have a very, very long journey ahead of us."

Flint Residents Receive Shower Water Filters

By Jesi Munguia, 9 & 10 News 05/23/16 1:01 AM

Thousands of water filters were given away to Flint residents this weekend because of ongoing concerns over lead. But up to this point most have been for kitchen faucets. On Saturday, members of the plumbers union UA Local 370 gave away and installed 1,000 shower filters. The filters are designed to target metals and potentially irritating chemicals. Low flow shower heads and faucets were also donated to Flint residents.

Mark Ruffalo responds to criticism of his Flint statements

By FOX News 05/23/16 [video clip]

Mark Ruffalo responds to criticisms about his non-profit Water Defense and statements he made regarding the safety of bathing in Flint, Michigan's water

Mark Ruffalo's Water Nonprofit Has Allied Itself With An Opportunistic Sponge Salesman

By Arthur Delaney, Huffington Post 05/23/16 7:59 AM

Ever since oil giant BP used his product as part of the cleanup after the Deepwater Horizon oil

spill in 2010, Scott Smith has traveled the world pitching his special sponge technology. He brought it to disasters in China, Arkansas, Virginia, Canada and even Italy, where in 2012 he tried to convince Italian officials to use his plastic foam for mopping up any olive oil that might leak from the wrecked Costa Concordia cruise ship.

MDEQ director won't take administrative action against employees until criminal cases resolved

By Lindsey Smith, Michigan Radio 05/23/16 5:30 AM

The head of Michigan's environmental regulatory agency says he won't take any more administrative action against state employees involved in the Flint water crisis until the criminal cases against them are resolved. In January, interim director of Michigan's Department of Environmental Quality Keith Creagh asked Michigan State Police to investigate employees in his department. The report was finished in March, but it hasn't been released to the public yet. A request for the report under the Freedom of Information Act is pending.

Water distribution sites shifting in Flint

By Steve Carmody, Michigan Radio 05/23/16 1:30 PM

The last Flint fire station distributing water to city residents will stop doing it by the end of this week. Michigan National Guardsmen have been handing out cases of bottled water and filters at the fire station on Martin Luther King for months.

Michigan National Guard's efforts in Flint wind down

By Chad Livengood, Detroit News 05/20/16 7:04 PM

The Michigan National Guard is winding down its emergency relief efforts in Flint as the city transitions from using firehouses for distributing bottled water to new community centers, Gov. Rick Snyder said Friday. Since January, about 400 members of Michigan's Army and Air Force National Guard have been working in Flint to distribute bottled water and lead-removing faucet filters to residents after Snyder declared a state of emergency because of high levels of lead in the drinking water supply.

Going There: The Future Of Water

By Michel Martin, NPR 05/23/16 12:15 PM

On Tuesday, May 24, I'll be in Fort Collins, Colo. to dive into these issues. In collaboration with member station KUNC, Going There: The Future of Water will feature a night of spirited discussion and performances. We also take the conversation to social media with a live Twitter chat, beginning at 6:30 p.m. Eastern Time on Tuesday, using the hashtag #NPRH2O.

Melissa Mays has proudly lived in Flint, Michigan since 2002, where she is a clean water activist. With her husband, Melissa formed Water You Fighting For, an organization that connects activists with the stated mission of standing together against the loss of democracy and denial to clean, safe and affordable water.

It's Disturbingly Common For Americans To Go Days Without Safe Drinking Water

By Joseph Erbentraut, Huffington Post 05/23/16 7:30 AM

Most Americans are aware of the water crisis in Flint, Michigan, but typically don't think similar conditions could affect their everyday routines. Lead didn't enter Flint's water supply because a water main broke, but the ongoing problems there illustrate how a lack of resources and short-sighted decision-making about a community's water supply can hurt thousands of people. Water is a daily necessity. Think about it: How many times a day do you use water from a tap?
